

Brief introduction

Elif Zeyneb Tekin, Researcher, Sustainable Aviation, Energy and Power Systems Research Group at ERHAM

- Elif Zeyneb Tekin is an aeronautical engineer specializing primarily in gas turbine engine design. She develops digital models to make the gas turbine engine and propeller design process more efficient and resource-saving. After studying aeronautical engineering at Erciyes University, MSc. Tekin pursued her master's degree in 'gas turbine engine/propeller modeling.' She joined the ERHAM team at Erciyes University Faculty of Aviation Sciences in 2025 when she began her master's studies.
