

Brief introduction

Esma Uluşan, Researcher, Sustainable Aviation, Energy and Power Systems Research Group at ERHAM

- Esma Uluşan is a specialist in aviation management, focusing on administrative and financial processes within academic research environments. After graduating from the Aviation Management Department at Erciyes University, she immediately began her master's studies in the same field. In 2024, she joined the ERHAM (Erciyes Aviation Research Center) team within the Faculty of Aviation Sciences at Erciyes University. She is responsible for managing the laboratory's administrative and financial affairs and also contributes to research and academic studies in the field of aviation management. In addition, she is involved in various projects related to the hydrogen economy, with a particular focus on sustainability-oriented initiatives.
